VISION

Our vision is to have vibrant scientific and educational community that is creative, adaptable, and internationally renowned for excellence in education and research.

It envisages improved society and address global challenges by producing scientifically-trained leaders, innovators, and to enhance public understanding of science.

MISSION

Advancing the frontiers of knowledge in areas of physics, chemistry, biology and mathematics. Providing access to rich educational experience that will motivate all the students, to seek the highest levels of intellectual achievement and personal growth;

Sharing our knowledge, discoveries and inventions with the people of the nation and the world in order to improve appreciation and comprehension of science and to bring the benefits of science to society.

OBJECTIVES

The Science Forum is being established to create awareness and interest among students in science subjects.

It motivates students to conduct exhibitions in the various branches of science.

The Science Forum conducts Quiz, Debates, Seminars and Talks on various topics in different disciplines of science, especially on the recent developments in the field of science and technology.

It also brings in experts in the field to enlighten and guide students on the career options in science.
